Three Millennium Development Goal Fund Policy to Address Fiduciary Risk and Fraud
Version 4.0 October 2017

1. Purpose
This document aims to clarify the Three Millennium Development Goal Fund’s (3MDG) policy and procedures related to financial risk and fraud, including procedures for reporting and investigating suspicious of fraudulent activity. The United Nations Offices for Project Services (UNOPS) provides the 3MDG Fund Management Office (hereinafter “Fund Manager”) and serves as trustee of the financial resources of the 3MDG. The functions of UNOPS include but are not limited to disbursing financial resources, reporting on all financial and operational aspects relating to 3MDG, ensuring monitoring of the implementation of activities and fulfilling other functions, as set out in the Contribution Agreements concluded with 3MDG donors.

2. Context
As a mechanism for pooled funding, there is a need for UNOPS / 3MDG to agree on a standard policy on financial risk and fraud. As 3MDG allocation decisions are made by the Fund Board and translate into grants and contracts between UNOPS / 3MDG and various other parties, this common standard shall be based on the UNOPS Fraud Policy\(^1\). The UNOPS Policy is part of the wider risk management framework of UNOPS which includes risk- and fraud-related provisions covering various areas and levels, including but not limited to procurement, staffing, financial regulations and rules, financial declaration statements, accountability and oversight, internal control, internal audit and investigation.

Additional 3MDG-specific safeguards will take account of further requirements of 3MDG donors where applicable and possible, in particular relating to the reporting obligations of the Implementing Partners in relation to fraud.

3. Definitions
Within the UNOPS Fraud Policy, fraud is defined as “as the intentional act by one or more individuals involving the use of deception to obtain an unjust or illegal advantage.”

UNOPS manages public funds that have been entrusted to the organization. UNOPS must therefore meet the highest standards of integrity and competency and demand no less from those wish to work with or for us. UNOPS will not work with any vendor who does not meet these standards of integrity and competency.

Implementing Partners / Grant Recipients, Sub-Grant Recipients, Contractors, Sub-Contractors having a legal agreement with UNOPS and / or receiving UNOPS funding are all referred to as “Vendors” in UNOPS terminology. These can include but are not limited to INGOs, CBOs, CSOs, LNGOs, Organizations, Institutions, Companies, and Individuals.

\(^1\) Operational Directive 10, available at https://www.unops.org/english/About/accountability/IAIG/Pages/default.aspx
3.1 Forms of fraud

<table>
<thead>
<tr>
<th>Offenses leading to Vendor / sanctions</th>
<th>Description</th>
</tr>
</thead>
</table>
| • Corrupt Practice                     | Someone offers, gives, or receives anything valuable with the intention to influence another. For example, kickbacks and bribes:  
  • If an organization or contractor offers something valuable to make sure they win the bid.  
  • This can be money or something else, e.g. a car |
| • Fraudulent Practice                  | Intentional misleading of someone to gain an advantage. For example:  
  • An organization or contractor misstating its financial records or hiding the true ownership of the organization or contractor, which would be misrepresentations  
  • An organization or contractor submitting forged receipts to support expenditure  
  • An organization or contractor fabricating past experience  
  • An organization or contractor altering or forging documents |
| • Coercive Practice                    | Someone harms or threatens to harm any party or its property to improperly gain influence over it. For example:  
  • Threatening to harm someone’s family if they are not given an award |
| • Collusive Practice                   | An agreement between two or more parties to limit competition by deceit or fraud. For example:  
  • Agreement by organizations or contractors to divide a market, thus  
  • Misrepresenting the independence of the relationship between the colluding partners |
| • Unethical Practice                   | Conduct or action that breaks UNOPS’ rules of doing business. For example:  
  • Accepting invitation for a dinner from an organization or contractor that the Fund Manager is awarding a grant or contract to  
  • You or your family has a financial interest in an organization or contractor bidding on UNOPS grants or business |
| • Obstruction                         | An act that interfered with or fails to cooperate with an investigation. For example:  
  • Not responding to the UNOPS Internal Audit and Investigation Group’s (IAIG) request for an interview or records  
  • Not answering questions truthfully  
  • Destroying documents |

<table>

3.2 Consequences of Fraud / Sanctions

Four main consequences are defined:

a) Vendor sanctions

Vendors found to be participating in fraud or serious misconduct may be subject to suspension, termination and/or debarment from future grants and contracts with UNOPS or other UN agencies. Suspension temporarily prohibits vendors from implementing UNOPS activities during an IAIG investigation prior to the commencement of formal sanction proceedings. Termination foreshortens an ongoing grant. Debarment formally prohibits a vendor from bidding on UNOPS grants or participating in its activities. Sanctioned vendors are published on the UNOPS public website[2].

b) Criminal Prosecution

Criminal penalties include: Imprisonment, fines, forfeiture of assets and of benefits received as a result of illegal activity.

c) Reputational Damage

Vendors found to be participating in fraudulent conduct lose their legitimacy in the public eye. Reputational damage leads to a decrease in trust and less utilization of services provided by organizations and contractors associated with fraud.

d) Economical Damage

Fraud can destroy entire institutions, organizations and companies. Draining funds from institutions, organizations and companies for private gain can result in loss of willing implementing partners, business partners and loss of employment for innocent people.

Those found to have been involved in fraudulent and corrupt activity or to have been negligent in the exercise of supervisory duties will be subject to disciplinary and, where appropriate, criminal proceedings. Action will also be taken to recover any funds that have been lost or misused unless a case is submitted to the Fund Board with a strong justification for not pursuing recovery. Similarly, funding may be recovered, and future funding withheld from funding recipients where arrangements for preventing or detecting fraud and corruption fail to improve.

For UNOPS staff members, pursuant to Staff Rule 10.1 (b), UNOPS will pursue recovery for any financial loss attributable to the staff member’s misconduct (fraud, theft), or gross negligence, or recklessness, in the management of funds.

---

4. Procedures in case of suspected fraud

4.1 Duty to report
Anyone suspecting a fraud case has a duty to immediately report fraud:

- Grant recipients / Sub-grant recipients / Contractors / Sub-contractors and all their personnel: Duty to report is required under the grant agreements and contracts **five (5) working days** to report suspicions of fraudulent actions.

- UNOPS Personnel: OD 36 provides that all personnel have a duty to report fraud

Anyone can use the following UNOPS channels for reporting fraud, misconduct or corruption, e.g. by email, phone and mail:

- 3MDG Fund Director, Orenn Ginzburg, by email OrennG@unops.org, by phone +95 657278 ext. 301, by postal mail No. 12(O), Pyithu Lane, 7 Mile, Mayangone Township, Yangon, Myanmar.
- fraudhotline@unops.org
- By telephone: +45-3546-7654 (fraud hotline voicemail worldwide system)
- By mail: UNOPS/Internal Audit and Investigations Group, Marmovej 51, 2100 Copenhagen, Denmark

Depending on the issue and potential exposure of the reporter at hand, such reporting may follow your own organisation’s fraud policy (if existing) and thus may reach the Fund Manager through the channels you have established under your policy, e.g. through the Country Director or internal audit or an investigator. You are however still required to report such suspicion / investigation within five (5) working days to the Fund Manager so that a joint investigation can be conducted if deemed necessary by the Fund Manager.

Please refer to [https://www.unops.org/english/About/accountability/IAIG/Pages/How-to-report-wrongdoing.aspx](https://www.unops.org/english/About/accountability/IAIG/Pages/How-to-report-wrongdoing.aspx) for more guidance.

4.2 Procedures for reporting
Fraud cases could appear at various levels:

- Within the Fund Manager’s office;
- Involving a direct vendor;
- Involving a sub-grant recipient or sub-contractor; and
- Outside the circle of UNOPS / 3MDG contractual relations, but within the organizations that are involved in the management and implementation of the Fund’s activities.

For cases that occur at the different levels, the following reporting mechanisms are recommended:
a) **Suspicion of fraud within the Fund Manager**
For suspicions of fraud that arise within the office of the Fund Manager, UNOPS Organisational Directive No. 36 (OD 36)\(^3\) stipulates a duty to report for all personnel. Suspected fraud should be reported to the supervisor or via one of above cited channels directly to IAIG.

b) **Suspicion of fraud involving a direct vendor**
Implementing Partners and Contractors shall be obliged to promptly report instances of suspected fraud within their offices (e.g. when being investigated) as soon as possible, within five (5) working days of suspicion, to the Fund Manager or to one of the provided channels under section 4.1. Reporting of suspected episodes of fraud is a mandatory requirement under UNOPS / 3MDG grant agreements and contracts.

The Fund Director, who is the focal point for fraud control within the Fund Manager, when informed of such fraud suspicions, shall monitor such cases and ensure that progress or final findings are documented in the Fund Manager’s records.

c) **Suspicion of fraud involving a sub-grant recipient or sub-contractor**
Grant recipients, sub-grant recipients, contractors and sub-contractors and all their personnel are obliged to promptly report instances of suspected fraud within the offices of sub-recipients of grants and sub-contractors as soon as possible, within five (5) working days of suspicion, to the Fund Manager if such cases pose a risk to the financial or reputational standing of the Fund.

d) **Suspicion of fraud outside the circle of 3MDG contractual relations but within an entity that is involved in the management and implementation of the Fund’s activities**
Fund Board members as well as the Fund Manager shall share relevant information if they become aware of ongoing investigations or allegations outside UNOPS / 3MDG (including from media and members of the public) against UNOPS / 3MDG vendors (Implementing Partners, Contractors, Sub-Grant Recipients, Sub-Contractor or any of their personnel), or other stakeholders and shall provide means for whistle-blowers to raise their concerns (e.g. through contact information and the UNOPS public website). Such information shall be reviewed to determine whether it could impact on UNOPS / 3MDG’s financial or reputational standing and whether lessons could be drawn to strengthen the Fund’s own risk mitigation framework.

5. **Investigations**
Investigations into cases of suspected fraud shall be the responsibility of UNOPS Internal Audit and Investigations Group (IAIG). The Director, IAIG, will make an initial assessment of the reported incident and may, at his/her discretion, decide that a preliminary assessment be conducted. Based on the preliminary assessment, if any, and/or IAIG’s initial assessment, the Director, IAIG shall determine whether a formal investigation should be conducted.

All investigations are confidential. Allegations not substantiated are closed.

---

\(^3\) The full text of OD 36 is available at [https://www.unops.org/SiteCollectionDocuments/Accountability/OD-36.pdf](https://www.unops.org/SiteCollectionDocuments/Accountability/OD-36.pdf).
6. Closure of fraud cases
Suspected fraud cases may be recommended for closure by the Fund Manager after the matter has been investigated, appropriate penalties applied, funds/assets recovered and remediation of any identified fraud control weaknesses. If these outcomes cannot be achieved, the Fund Manager is requested to be able to demonstrate that the organisation concerned has done their utmost to achieve them. Conversely, a case may be closed if it is determined that fraud has not occurred.

7. Prevention of fraud
All contractual agreements of UNOPS/3MDG with grant-receiving Implementing Partners (IPs), as well as contractors and personnel, are in the name of, and managed by, UNOPS / 3MDG. UNOPS has put in place a wide range of management procedures and fiduciary controls, managed under the oversight of the UNDP/UNFPA/UNOPS Executive Committee, including representation of member states. Specific to 3MDG, financial and fraud risks are dealt with through the following mechanisms:

a) Pre-emptive: Financial and Governance capacity assessments
For new IPs, the Fund Manager carries out financial capacity assessments as part of its due diligence in respect of its fund management obligations. This assessment includes: fund flow systems; staffing and staff capacity; accounting policies and procedures; audit procedures; reporting and monitoring systems; project management and governance configuration; and information systems. This financial capacity assessment will form the basis for a fraud risk determination which will be undertaken by the Fund Management Office. Grant engagement requires that minimum financial capacity criteria are met. The assessment may prompt recommendations to strengthen a partner’s capacity during the life of the grant. Implementation of recommendations is monitored by the Fund Manager.

b) Fraud Prevention Training
Implementing Partners, Sub-Grant Recipients, Contractors and Sub-Contractors are obliged to ensure that the 3MDG policy on fraud is widely understood within their organizations / companies and also communicated to beneficiaries as part of their beneficiary accountability commitments. Fraud prevention training provided by the Fund Manager is mandatory for all Implementing Partners. The training is with the intention to improve their beneficiary feedback mechanisms, increase awareness of areas susceptible to fraud, as well as strengthen their own internal mechanisms for detecting cases of fraud, as an essential measure to mitigate any risk of fraud.

Please see the section 8 for resources that Implementing Partners can use for the dissemination of this policy internally. The Fund Manager recommends the methodology of using an example scenario – which could be built on past cases, or likely scenarios of potential ethical conflicts – to hold workshops on Fraud Prevention within each organization to remind all personnel of the obligations and consequences.

c) Detection of fraud through monitoring of Implementing Partner activities in the field
All projects are visited regularly as defined in the Operational Guidelines. Project visits include visits to field offices and discussions with project and support staff, determining whether activities are progressing within the framework of the grant agreement’s work plan and whether adequate management and oversight processes are in place. Findings from field trips are shared with the 3MDG management team and catalogued systematically. Delays, deviation from work plans and
weaknesses within the management of the project (including governance, finance, procurement/logistics, fund flow, HR, and other administration) trigger discussions within the Fund Manager office and with IP representatives, aiming to address such risks through strengthened systems and adjustments of work plans/revisions of grant agreements where this is in the interest of the Fund and in line with the objectives of providing support to project beneficiaries. Serious weaknesses and non-performance may prompt the suspension of the grant to allow for a more thorough assessment to determine whether or not a grant should be terminated.

d) Commodity tracking reviews with Implementing Partners
The Fund Manager carries out a commodity tracking review with Implementing Partners who are engaged in the procurement and/or distribution of commodities procured under UNOPS / 3MDG contracts or grants. Commodity tracking reviews ensure that; all commodities procured under the UNOPS / 3MDG are utilized according to the agreements between the UNOPS / 3MDG and the implementing partners; all implementing partners have functioning and transparent supply chain management and commodity tracking systems in place; and there is no leakage of UNOPS / 3MDG funded commodities. In addition to commodity tracking reviews, the Fund Manager is responsible to ensure that regular spot checks are conducted to make sure that UNOPS / 3MDG commodities are provided free of charge to beneficiaries.

e) External audits of Implementing Partners
All non-UN Implementing Partners are audited annually by an independent audit firm. The areas of focus include: a) effective, efficient and economical use of resources; b) reliability of reporting; c) safeguarding of assets; and d) compliance with applicable legislation. All audit reports are published on the UNOPS public website’s Accountability section. In cases where there is no added value in a full audit of an Implementing Partner (e.g., if previous audits did not result in any ‘high risk’ recommendations or where the grant agreement has already expired), the Fund Manager may recommend to carry out an expenditure verification.

f) Audits of the Fund Manager
The Fund Manager is audited annually by UNOPS’ Internal Audit and Investigations Group. These audits consist of two parts: i) an audited financial statement, which is composed of the statement of audit opinion together with the signed financial statements; and ii) a management letter or report. The audited financial statement shall be provided to donors as a way of giving assurance on the use of donor funds and are also published on the UNOPS public website’s Accountability section.
