Guidance on anticipated programmatic results for the proposal term

The Access to Health Fund
Applicants are requested to provide their anticipated results for 2019-2023 for some key programme indicators in the LogFrame template.
A few guiding points:

1. Please provide targets for all applicable indicators in each thematic area.

For most indicators, please refer to Indicator guidelines published in 3MDG website and national M&E plans.
A few guiding points:

2. Up to five additional indicators can be proposed

3. Data sources and baseline data (where applicable) should be included.
A few guiding points:

4. The target-setting assumptions should be clearly explained for each indicator. It should also be explained how the population coverage was estimated. Where possible, references should be made to the existing evidence.

5. The proposed programmatic targets should be consistent between the LogFrame and Program Budgets, whenever applicable.
Please note:

The indicators submitted by applicants as part of the CfP process will represent only a sub-set of grant indicators;

Further indicators will be included and the targets set during the grant negotiation process with selected implementing partners.
Thank you!
