Gradually increase universal entitlements for priority services – these will form the foundation of a strong health system

INVEST IN INFORMATION: e.g. monitor financial protection. Information is the bridge between policy and real health system improvement

Progress towards UHC

Future health financing reforms should focus on the three core health financing functions – NOT charging patients

Translating increased public investment into health improvements requires coordinated action on many fronts

Dr. M. Jowett, Myanmar Health Forum, 28-29 July 2015
Parallel Session 1: What is needed to achieve UHC
